

Sponsor a Child

See the difference you can make in a child's life

Join Sustainable Cambodia's worldwide community of sponsors ~ Connecting good people around the planet with families and children who desperately need their help. Your sponsorship creates amazing opportunities in the lives of these remarkable children and their families, helping them create a sustainable quality of life. Your sponsorship not only supports the child's education, but extends beyond school to their homes: Along with support from Rotary clubs around the world, it brings far-reaching community development programs that empower families to build knowledge, experience and confidence to generate sustainable income.

With your sponsorship, you will receive a Sponsorship Package on the child, and periodic Child Reports. Like all our programs, every dollar goes directly to the program, with no corporate overhead. By our founding principles, only native Cambodians may be employed as paid staff, and all international officers, directors and consultants must be unpaid volunteers, ensuring that 100% of funding goes directly into the programs. The young person below needs a sponsor. We hope you can help.

Chanrin SOU

~~ Male 18 years old - Birthdate: 03/06/1992 ~~ Chanrin, like all the children in Sustainable Cambodia's school, is from the rural villages in Pursat, in central Cambodia. Without the SC program, most of these children would attend a few years of government school, and then would drop out before completion. Without the wells and water that SC sponsorship provides, the children often must spend several hours a day carrying water from distant locations. With SC sponsorship, families participate in community development programs that help create an environment in which the children can thrive. And the SC school provides books, clothes, school supplies, bicycles and multiple enrichment classes. Children and families learn that, with hard work, they can succeed. Your sponsorship will keep the dream alive.

Note to Sponsors: In addition to students in grades 1-12 in the SC school, SC has numerous preschools and nearly 60 students who are attending university in Cambodia on scholarship. The SC grade school is a supplement to the Government school, not a replacement. In developing countries, including Cambodia, it sometimes takes students several more years to complete secondary school, so it is not unusual for a student 18 or 19 years old to be in grade 12. The important thing is that they stay in school. Last school year, more than 90% of our grade 12 graduates qualified for and received university scholarship! That is what sponsorship can make happen!

Sponsorship Availability:

- USD \$450/year Scholarship Sponsor (Full): To assist a student in attending college.
- USD \$225/year Scholarship Sponsor (Shared)

Checks may be made payable to either: 1) the Rotary club or group that is organizing the sponsorships, or 2) Sustainable Cambodia, Inc., and mailed to: 101 SE 2nd Place, Suite 201-B, Gainesville, FL 32601 USA
